### **Course Pre-requisites, Co-requisites, and Concurrent Enrollment**

Social Work Practice with Children and Families Across Settings is an introductory course in the Department of Children, Youth and Families. Students will have successfully completed the foundation semester before enrolling in this course.

### **Catalogue Description**

Theory and principles underlying social work in host settings and nonspecialty sector settings with a primary emphasis on working with children, youth, and families.

### **Course Description**

Children and families receiving social work services often navigate multiple service sectors. In some settings, social work is the primary focus of the agency (e.g., child welfare, mental health, youth empowerment programs). In other settings, social workers operate in a "host setting" where social work is not the primary function or profession; in these settings, administrators may not be particularly familiar with social work values and ethical standards (e.g., correctional facilities, the military, hospitals, and schools). Moving across service sectors presents unique challenges for children, families, and social workers. Often children and families do not know how to achieve their goals within the confines of various service sectors or they "fall through the cracks" when trying to move between service sectors. Social workers' efforts can be ineffectual if they do not understand how to collaborate with other family serving sectors or when they change employment from one sector to another. In this course, students will explore various settings where children and families commonly receive social work services in order to understand the objective of the setting, the organization of the setting, the role of the social worker in the setting, and the common methods of working with children and families in the setting. Upon completion of this course students will have knowledge to enhance their facility in working within varied children

and family serving settings. Students will also have developed knowledge to assist families in navigating multiple service sectors.

### Course Objectives

The Social Work Practice with Children and Families Across Settings course (SOWK 610) will:

1. Introduce students to the mission, organizational structure, and role of the social worker in service sectors where children and families most often receive social work services.
2. Demonstrate the generalist skills that social workers can use across multiple service sectors.
3. Provide students with in-depth knowledge of the unique skills required in specific service settings.
4. Provide the foundation for students to be able to work in multiple settings serving children and family.
5. Introduce students to theories of interagency collaboration and develop collaborative skills when working across service settings.

### COURSE FORMAT / INSTRUCTIONAL METHODS

The format of the course will consist of didactic instruction and experiential exercises. These exercises may include the use of videotapes, role-play, or structured small group exercises. Material from the field will be used to illustrate class content and to provide integration between class and field. Confidentiality of material shared in class will be maintained. As class discussion is an integral part of the learning process, students are expected to come to class ready to discuss required reading and its application to theory and practice.

### Student Learning Outcomes

The following table lists the nine social work core competencies as defined by the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards:

Social Work Core Competencies	
1	Demonstrate ethical and professional behavior*
2	Engage in diversity and difference in practice
3	Advance human rights and social, economic, and environmental justice
4	Engage in practice-informed research and research-informed practice
5	Engage in policy practice
6	Engage with individuals, families, groups, organizations, and communities*
7	Assess individuals, families, groups, organizations, and communities
8	Intervene with individuals, families, groups, organizations, and communities
9	Evaluate practice with individuals, families, groups, organizations, and communities

\* *Highlighted in this course*

See **Appendix A** for an expanded table, which details the competencies and dimensions of competence highlighted in this course. The table also shows the course objective(s), behaviors/indicators of competence, and course content and assignments related to each competency highlighted in the course.

**COURSE ASSIGNMENTS, DUE DATES, AND GRADING**

Assignment	Due Date	% of Final Grade
<b>Assignment 1: Organizational Analysis of Host Setting</b>	Unit 5	25%
<b>Assignment 2: Collaborative Plan Presentation</b>	TBA	30%
<b>Assignment 3: Case Analysis and Transferable Skills Roundtable</b>	Unit 13-15	35%
<b>Class Participation</b>	Ongoing	10%

Each of the major assignments is described below.

**Assignment 1**

This assignment focuses on examining the mission, organizational structure, and service delivery in a host setting where children and families are served.

**Due: Unit 5 at 11:59PM (PST)**

*This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.*

**Assignment 2**

Based on interagency collaboration theory, students will develop and present a collaborative plan for two service sectors in order to better serve children and families.

**Due: TBA**

*This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.*

**Assignment 3**

In this assignment students will apply and demonstrate professional and generalist social work skills to a case vignette in a mock multidisciplinary team meeting that social workers can use across service sectors where children, youth, and families are served.

**Due: Unit 13-15**

*This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.*

**Class Participation (10% of Course Grade)**

It is expected that students will attend class regularly, participate in the class discussions, and submit work promptly. Failure to meet these expectations may result in reduction in grades.

Your involvement in this class is considered essential to your growth as a practitioner. You will be asked to discuss the material assigned, participate in role-playing, exercises, etc. Knowing the "right" answers is not nearly as important as being willing to risk, explore your ideas, and be open to new information and ideas. Your presence in class along with preparation by having completed the asynchronous material, read required readings, considered the assignments, and participation in discussion, is essential.

Class grades will be based on the following:

Grade Points		Letter Grades	
3.85 – 4.00	A	93 – 100	A
3.60 – 3.84	A-	90 – 92	A-
3.25 – 3.59	B+	87 – 89	B+
2.90 – 3.24	B	83 – 86	B
2.60 – 2.89	B-	80 – 82	B-
2.25 – 2.59	C+	77 – 79	C+
1.90 – 2.24	C	73 – 76	C
		70 – 72	C-

See **Appendix B** for additional details regarding the definitions of grades and standards established by faculty of the School.

### Attendance and Participation

Students' active and substantive involvement in the class is considered essential to their growth as practitioners. Consistent attendance, preparation for and participation in class discussions and activities, timely completion of coursework and assignments, and personal conduct that fosters a respectful, collegial, and professional learning environment are expected. Having more than 2 unexcused absences in class may result in the lowering of the grade. For VAC and remote/hybrid Ground courses, substantive participation includes maintaining an active screen in live sessions and completing all asynchronous content and activities prior to the scheduled live class discussion. Failure to complete 2 or more asynchronous units before the live class, without prior instructor permission, also may result in a lowered grade.

#### Class participation will be assessed according to the following criteria:

**“A” grade range: Very Good to Outstanding Participation:** Contributions in class reflect thorough preparation, and participation is substantial. Ideas offered are always substantive. Regularly provides one or more major insights and comments that provoke deeper thought. If this person were not a member of the class, the quality of discussion and class activities would be diminished markedly.

**“B” grade range: Good Participation:** Contributions in class reflect solid preparation. Ideas offered are usually substantive, and participation is regular. Provides generally useful insights and some comments that provoke thought. If this person were not a member of the class, the quality of discussion would be diminished somewhat.

**“C+” or “C”:** **Adequate Participation:** Contributions in class reflect some preparation. Ideas offered are somewhat substantive. Provides some insights, but seldom offers comments that provoke deeper thought. Participation is somewhat regular. If this person were not a member of the class, the quality of discussion would be diminished slightly. Please note: The minimum passing grade at the graduate level is “C”.

**“C-” or “D”:** **Inadequate Participation:** Says little in class and does not adequately participate in activities or present insights or ideas. Does not appear to be engaged. Submits late work. If this person were not a member of the class, the quality of discussion would not be affected.

**“F”:** **Nonparticipant/Unsatisfactory Participation:** Misses class. When present, contributions in class, if any, reflect inadequate preparation. Ideas offered are seldom substantive, and behavior may be inappropriate and/or disrespectful. Unable to work effectively on in-class assignments/activities and detracts from the learning process. Regularly misses assignment deadlines, if work is submitted at all.

**Appendix B: Definitions of Grades and Standards Established by Faculty of the School**

Within the USC Suzanne Dworak-Peck School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School:

1. Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.
2. A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.
3. A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.
4. A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.
5. A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement.
6. Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

**Appendix D: Suzanne Dworak-Peck School of Social Work Diversity, Equity, and Inclusion Statement**

At the USC Suzanne Dworak-Peck School of Social Work, we aspire to promote diversity, equity and inclusion in our courses and professional practice. We value the diverse backgrounds and perspectives that our students bring into the classroom as strengths and resources that enrich the academic and learning experience. We offer and value inclusive learning in the classroom and beyond. We integrate readings, materials and activities that are respectful of diversity in all forms, including race, ethnicity, culture, gender identity and expression, sexual orientation, age, ability and disability, socioeconomic status, religion, and political perspectives. Collectively, we aspire to co-create a brave space with students and instructors to critically examine individual and collective sources of bias, prejudice, discrimination, and systematic oppression that affect the ability of people and communities to thrive. In this way, we fulfill our professional responsibility to practice the [NASW Code of Ethics](#), abide by the [CSWE Educational Policy and Accreditation Standards](#), and address the [American Academy of Social Work and Social Welfare, Grand Challenges for Social Work](#).

## Appendix E: Statement on Academic Conduct and Support Systems

### Attendance Policy

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email ([xxx@usc.edu](mailto:xxx@usc.edu)) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements in advance to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to [SCampus](#) and to the [USC School of Social Work Policies and Procedures](#) for additional information on attendance policies.

### Statement on Academic Conduct

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Recording a university class without the express permission of the instructor and an announcement to the class, as well as distributing or using recordings of university lectures or classes without the express permission of the instructor, for purposes other than individual or group study, also constitute violations of the USC Student Conduct Code.

Please familiarize yourself with the discussion of plagiarism, unauthorized recording of university classes, and other forms of academic dishonesty and misconduct in SCampus, Part B, Section 11, "Behavior Violating University Standards," as well as information in SCampus and in the university policies on scientific misconduct.

### Statement about Incompletes

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official "Incomplete Completion Form."

### Policy on Late or Make-up Work

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

### **Policy on Changes to the Syllabus and/or Course Requirements**

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

### **Code of Ethics of the National Association of Social Workers (Optional)**

*Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly*

#### **Preamble**

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
