

BISC 438 Nutritional Biochemistry (4 Units)
2022 Fall Semester
Syllabus

Day/Time: Monday, Wednesday, and Friday 3:00 - 3:50 PM

Location: VHE 206

Instructor: Grayson Jagers, PhD

Office: ZHS 256

Office Hours: TBD

Email: jagers@usc.edu (Please allow 24 hours for a response)

Course Description

We all understand that the carbohydrates, proteins, and fats we consume provide our bodies with energy, but there are biologically-active nutritional chemicals that do not provide energy. What roles do these molecules serve in our body? By what mechanisms do they impact our health? These are the questions that we will address throughout this course.

The class will consist of a mixture of lecture and in-class discussion. Topics covered include, amino acid metabolism, lipid synthesis, and the metabolic functions of vitamins and minerals. The course will also explore the functions of biologically-active non-nutrients such as caffeine and phytochemicals. This course will reinforce the principles taught in BISC 330/312, and expand upon them as students learn the biochemical basis of nutrition's impact on metabolic functions.

Learning Objectives

After completion of homework, in-class discussions and examinations, students should be able to effectively execute the following:

1. Clear written communication of complex concepts in biochemistry.
2. Compare and contrast biochemical regulatory mechanisms.
3. Establish connections between the metabolism of various nutrients.
4. Establish connections between nutrient metabolism and nutrition-based diseases.

Prerequisite: BISC 330L (Biochemistry)

I. Textbook (Optional)

Stipanuck, Martha H., Caudill, Marie A. Biochemical, Physiological, and Molecular Aspects of Human Nutrition (4th Edition, 2019).

II. Description and Assessment of Assignments

Exams are typically 30% multiple-choice, and 70% written response. They will be based upon concepts discussed in lecture and homework. Any information presented outside of lecture or homework assignments will not be tested upon, unless specifically stated.

Homework contains problems that require a written response. Homework that receives full credit will be turned in before the beginning of class, and contains well-reasoned and accurate responses to the questions. Late homework will not be accepted. Exceptions can be made for students under certain circumstances.

III. Grading Breakdown

The course grade will be based upon three lecture exams, homework, and quizzes. Each exam will be worth 100 points, and 20% of the overall grade. Homework assignments will vary in length, and total 30% of the overall grade. There will be eight short homework assignments worth 5 points, and six longer assignments worth 10 points each. Some lecture meetings will be dedicated to covering the longer homework assignments (indicated on lecture schedule).

Midterm 1: 100 points

Midterm 2: 100 points

Final Exam: 100 points

Homework: 50 points

Total: 350 points

Typical Grade Breakdown:

A range: 85-100%

B range: 70-84%

C range: 60-69%

Attendance: Exams must be taken during the scheduled class period. Attendance in lecture is not required, but is recommended, as we will be reviewing homework as well as going over lecture material.

IV. Tentative Lecture and Exam Schedule (Subject to change)

Week	Date	Topic
1	22-Aug	Intro to Nutritional Biochemistry, Review of Glycolysis and β -oxidation
	24-Aug	Digestion and Absorption
	26-Aug	Digestion and Absorption of Carbohydrates and Protein
2	29-Aug	Lipid Digestion and Absorption
	31-Aug	Amino Acid Metabolism I
	2-Sep	Amino Acid Metabolism II
3	5-Sep	Labor Day
	7-Sep	Lipid Metabolism
	9-Sep	Cholesterol Synthesis and Metabolism
4	12-Sep	Fuel Regulation
	14-Sep	Energy Balance
	16-Sep	Homework Discussion
5	19-Sep	Midterm 1
	21-Sep	Water-Soluble Vitamins - Niacin
	23-Sep	Water-Soluble Vitamins - Riboflavin & Thiamin
6	26-Sep	Water-Soluble Vitamins - Folate
	28-Sep	Water-Soluble Vitamins - Choline
	30-Sep	Homework Discussion
7	3-Oct	Water-Soluble Vitamins - Vitamin C
	5-Oct	Fat-Soluble Vitamins - Vitamin E
	7-Oct	Fat-Soluble Vitamins - Vitamin K
8	10-Oct	Fat-Soluble Vitamins - Vitamin A
	12-Oct	Fat-Soluble Vitamins - Vitamin D
	14-Oct	Fall Recess
9	17-Oct	Mineral Metabolism - Calcium
	19-Oct	Homework Discussion
	21-Oct	Mineral Metabolism - Iron
10	24-Oct	Midterm 2
	26-Oct	Mineral Metabolism - Iodine
	28-Oct	Water Balance
11	31-Oct	Alkaloids
	2-Nov	Alkaloids
	4-Nov	Homework Discussion
12	7-Nov	Alcohol Metabolism
	9-Nov	Alcohol Metabolism
	11-Nov	Polyunsaturated Fatty Acids
13	14-Nov	Homework Discussion
	16-Nov	Polyphenols
	18-Nov	Polyphenols
14	21-Nov	Polyphenols

	23-Nov	Thanksgiving Break
	25-Nov	Thanksgiving Break
15	28-Nov	Phytosterols
	30-Nov	Phytoestrogens
	2-Dec	Homework Discussion

Final Exam: Monday, December 12, 2-4PM

VI. Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Support Systems:

Student Counseling Services (SCS) – (213) 740-7711 – 24/7 on call

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. engemannshc.usc.edu/counseling

National Suicide Prevention Lifeline – 1 (800) 273-8255

Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. www.suicidepreventionlifeline.org

Relationship and Sexual Violence Prevention Services (RSVP) – (213) 740-4900 – 24/7 on call

Free and confidential therapy services, workshops, and training for situations related to gender-based harm. engemannshc.usc.edu/rsvp

Sexual Assault Resource Center

For more information about how to get help or help a survivor, rights, reporting options, and additional resources, visit the website: sarc.usc.edu

Office of Equity and Diversity (OED)/Title IX Compliance – (213) 740-5086

Works with faculty, staff, visitors, applicants, and students around issues of protected class. equity.usc.edu

Bias Assessment Response and Support

Incidents of bias, hate crimes and microaggressions need to be reported allowing for appropriate investigation and response. studentaffairs.usc.edu/bias-assessment-response-support

The Office of Disability Services and Programs

Provides certification for students with disabilities and helps arrange relevant accommodations. dsp.usc.edu

Student Support and Advocacy – (213) 821-4710

Assists students and families in resolving complex issues adversely affecting their success as a student EX: personal, financial, and academic. studentaffairs.usc.edu/ssa

Diversity at USC

Information on events, programs and training, the Diversity Task Force (including representatives for each school), chronology, participation, and various resources for students. diversity.usc.edu

USC Emergency Information

Provides safety and other updates, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible. emergency.usc.edu

USC Department of Public Safety – UPC: (213) 740-4321 – HSC: (323) 442-1000 – 24-hour emergency or to report a crime.

Provides overall safety to USC community. dps.usc.edu

End-of-Semester Evaluations

I value your thoughts on the course, and myself, as your instructor. At the end of the semester, please take time to complete the course and instructor evaluations. I am always trying to improve the course, and this is a great way for me to utilize your insight.
