

USC Viterbi

School of Engineering

ITP-382 “Mobile Game Programming”

Units: 4

Fall 2022

Mon&Wed 10:00-11:50 am

Location: KAP 267

Instructor: Matt Whiting

Office: RRB 221

Office Hours:

Mondays 3-5 pm Zoom/Discord

<https://usc.zoom.us/j/93996765133>

Tuesdays 3-5 pm RRB 221

Mon/Wed 9-10 am KAP 267 (come to class early)

Contact Info:

Email: whitingm@usc.edu

Skype: crashlotus

Discord: Matt Whiting#2805

IT Help: Viterbi IT

Hours of Service:

Monday – Friday, 8:30 a.m. – 5:00 p.m.

Contact Info:

DRB 205

engrhelp@usc.edu

Course Description

Cell phones and tablets are everywhere today. Everyone has at least one, and they usually carry one around at all times. Everyone plays mobile games – even people who don't consider themselves video game players.

With just a few extra skills, any programmer can learn to build and distribute unique and creative mobile games.

Catalogue Description

Application of techniques used to develop games for mobile devices. Sprites, mobile input, mobile graphics and monetization.

Learning Objectives

This course provides students with an in-depth introduction to technologies and techniques used to create successful cross-platform mobile games.

At semester's end, students will have:

1. Developed a solid foundation in software engineering for mobile games
2. Gained an understanding of Unity & programming in C#
3. Demonstrated an understanding of the unique design requirements of supporting mobile devices
4. Deployed a game onto multiple different iOS and Android devices
5. Distributed a game via App Store Connect and Google Play
6. Applied these concepts creatively to develop their own unique game and deploy it to mobile devices

Prerequisite(s): CSCI-104 or ITP-365

Co-Requisite(s): n/a

Concurrent Enrollment: n/a

Recommended Preparation: prior experience with Unity

Course Notes

Each week is centered around a specific mobile game project. We will kick off each week with a lecture on Monday where we discuss the new topics for the week. Then on Wednesday, the in-class period will be devoted to building that week's project. These projects are individual week-long mobile games programs, and they are due before class begins on the following Wednesday one week later.

In this way, students get hands-on practice with the concepts while also getting an overview of several influential mobile games and the design lessons they have to teach us.

The in-class lectures are supplemented by pre-recorded videos to augment the lecture material and fill in the gaps for students with varied previous experience.

We will use a variety of online services in the classroom. Assignments and lecture notes can be found on Blackboard. The Weekly Projects are in Github Classroom. Outside the class, questions and discussion can be found on Piazza.

Technological Proficiency and Hardware/Software Required

We will be programming in C#, so previous experience with either C# or C++ is required. Students with significant previous experience with C# in Unity can waive the C++ prerequisite.

Required Readings and Supplementary Materials

Introduction to Game Design, Prototyping, and Development: From Concept to Playable Game with Unity and C#. 2nd Ed. Jeremy Gibson Bond. ISBN-10: 0134659864.

Recommended:

Game Programming in C++. Madhav, Sanjay. ISBN-10: 0134597206.

Description and Assessment of Assignments, Grading Breakdown

Assignment	% of grade
Weekly Projects	30
Weekly In-Class	10
Weekly Report Summary	10
Final Project	10
Midterm Exam	20
Final Exam	20
TOTAL	100

Weekly Projects

Each week is focused on an individual mobile game project. We will use the in-class time on Wednesday to work on these projects with the help of the instructor and TA(s). Each Weekly Project is due before the beginning of the class period on the following Wednesday.

Each Weekly Project begins with base requirements that all students must fulfill. After that, the assignment is divided into three Tracks: Programming, Design, and Art. After fulfilling the base requirements, each student may choose a track and perform the tasks called for on that track.

Weekly In-Class

Lecture time is devoted to working on these Weekly Projects each Wednesday. As such, it is expected that students attend the session and dedicate themselves to working on the appropriate assignments during that time. If a student is unable to attend during that time, they will be expected to spend a similar amount of time (approximately 1 hour and 50 minutes) at some point during that day working on the assignment.

To receive credit for the in-class work, students must commit their work to Github Classroom and copy a link to that commit into the appropriate assignment on Blackboard/Gradescope.

Weekly Report Summary

Along with completing the functional game each week, the weekly assignment concludes by filling out a short form where the students reflect on what they learned and accomplished with the project.

Final Project

The series of weekly game projects culminates with a unique, individually designed and created game project. The project will be formally presented to the class during the final class period.

Final Exam

Finally, there will be an exam in the form of a programming task that must be completed during the final exam period. The final exam will be found on Github Classroom.

Assignment Submission Policy

Weekly In-Class checkoffs are submitted on Gradescope.

Weekly Projects, the Final Project, and the Final Exam are submitted to Github Classroom.

Finally, the Weekly Report Summaries are Google Forms.

Additional Policies

Late assignments (with the exception of the Final Project and Final Exam) will be accepted with a 20% penalty plus 10% for each additional 24 past the original due date.

Course Schedule: A Weekly Breakdown

Subject to modification and update prior to the beginning of class August 22, 2022

	Topics	Assignment	Read it Before Class
Week 1 8/22	Course Introduction, Building to Device, Mouse 0 as Touch	In-Class 01: github	Gibson: Chapter 17, Appendix C
Week 1 8/24	Begin: Blackjack		Gibson: Preface, Chapters 18-24
Week 2 8/29	Accelerometer, XML Resource Data, Sprite Animation		Supplementary [1]
Week 2 8/31	Begin: Heads Up!	Due 10am: Blackjack	Gibson: Chapters 24-26, Appendix A
Week 3 9/5	No Class Labor Day		
Week 3 9/7	Begin: Missile Command	Due 10am: Heads Up!	Gibson: Appendix B ("Math Concepts" and "Interpolation")
Week 4 9/12	Collision Detection, Audio, Infinite Scrolling, Procedural Levels		
Week 4 9/14	Begin: Flappy Bird	Due 10am: Missile Command	Gibson: Appendix B ("C# and Unity Coding Concepts")
Week 5 9/19	Swipe Input, UI		
Week 5 9/21	Begin: Candy Crush	Due 10am: Flappy Bird	Gibson: Chapter 1
Week 6 9/26	3D and 3D Animation, Screen-to-World Transform		
Week 6 9/28	Begin: Hogwarts	Due 10am: Candy Crush	Gibson: Chapter 2
Week 7 10/3	Midterm Review		
Week 7 10/5	Midterm Exam		Gibson: Chapter 7
Week 8 10/10	Object Pools, Custom Shaders		
Week 8 10/12	Begin: Subway Surfer	Due 10am: Hogwarts	Gibson: Chapter 8

Week 9 10/17	Save/Load, Streaming Assets		
Week 9 10/19	Begin: Clash of Clans 1	Due 10am: Subway Surfer	Gibson: Chapter 9
Week 10 10/24	Virtual Joysticks, Animation Blend Trees, Sprite Atlas		Supplementary [2]
Week 10 10/26	Begin: Fortnite	Due 10am: Clash of Clans 1	Gibson: Chapter 10
Week 11 10/31	AI & Navigation		Supplementary [3]
Week 11 11/2	Begin: Clash of Clans 2	Due 10am: Fortnite	Gibson: Chapters 11 & 12
Week 12 11/7	Final Project Setup, In-App Purchases, Analytics		Supplementary [4]
Week 12 11/9	Begin: Final Project	Due 10am: Clash of Clans 2	Gibson: Chapter 13
Week 13 11/14	Language Support, In-Game Ads		Supplementary [5]
Week 13 11/16	Work on Final Project		Gibson: Chapter 14
Week 14 11/21	Android Asset Packs		
Week 14 11/23	No Class Thanksgiving Break		
Week 15 11/28			
Week 15 11/30	Final Project Presentations	Due 10am: Final Project	
Final Exam	Monday Dec 12 8-10am

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, policy.usc.edu/scientific-misconduct.

Support Systems:

Counseling and Mental Health - (213) 740-9355 – 24/7 on call

studenthealth.usc.edu/counseling

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call

suicidepreventionlifeline.org

Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-9355(WELL), press “0” after hours – 24/7 on call

studenthealth.usc.edu/sexual-assault

Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) - (213) 740-5086 | Title IX – (213) 821-8298

equity.usc.edu, titleix.usc.edu

Information about how to get help or help someone affected by harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants.

Reporting Incidents of Bias or Harassment - (213) 740-5086 or (213) 821-8298

usc-advocate.symplcity.com/care_report

Avenue to report incidents of bias, hate crimes, and microaggressions to the Office of Equity and Diversity | Title IX for appropriate investigation, supportive measures, and response.

The Office of Disability Services and Programs - (213) 740-0776

dsp.usc.edu

Support and accommodations for students with disabilities. Services include assistance in providing readers/notetakers/interpreters, special accommodations for test taking needs, assistance with architectural barriers, assistive technology, and support for individual needs.

USC Campus Support and Intervention - (213) 821-4710

campussupport.usc.edu

Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

Diversity at USC - (213) 740-2101

diversity.usc.edu

Information on events, programs and training, the Provost's Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.

USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call

dps.usc.edu, emergency.usc.edu

Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 – 24/7 on call

dps.usc.edu

Non-emergency assistance or information.

Office of the Ombuds - (213) 821-9556 (UPC) / (323-442-0382 (HSC)

ombuds.usc.edu

A safe and confidential place to share your USC-related issues with a University Ombuds who will work with you to explore options or paths to manage your concern.
