Environmental problems are complex. Part of the complexity comes from fundamental ideologies that define society’s relationship with the environment and as a result determine the purpose and approach to environmental problem solving. Often the underlying goal of environmental policy solutions is protecting the environment and better manage resources required for human welfare. If successful, these efforts frequently produce a skewed outcome saving only economically useful components of the environment. Moreover, these results are unevenly distributed with marginalized communities suffering disproportionately large shares of the negative consequences. Protecting the environment requires looking beyond the economic values of the environment to ensure complete ecosystems, the natural world in its entirety is protected. Decisions about the environment must consider inequities and issues of environmental injustice to ensure actions taken do not exacerbate but address the social imbalances and discrepancies in outcomes. The class will go over a wide spectrum of ethical positions on questions, such as, what is the value of environment? Where do these values come from? How do we make ethical decisions about environment when perceived values come into conflict? How experiences with the natural world are distributed in the society? How issues of social justice transcend complex environmental problems and vice versa? Are there parallels between the exploitation of nature and marginalized groups? What is the relationship between science, technology and ethics in environmental actions?

**Learning Objectives**

The class will prepare students to

- identify and understand different philosophical framings towards environment
- learn to be the linking member in a multidisciplinary team with different and often competing approaches to environmental problem solving
- critically evaluate real world challenges relating energy, water, forests that are often nested in sustainable development processes and connect them to philosophical and moral challenges in society
- have strong foundation in environmental justice issues
- deliberate and communicate about complex environmental problems
- use local and global cases and develop an experience-based knowledge on ethics and environment problems
- have a sophisticated conceptual and philosophical vocabulary and knowledge of fundamental concepts and ideologies relevant for environmental issues
- connect abstract theories with lived practice and learn about the grassroots work and local leaders who are making the efforts to simultaneously improve social justice and environmental conservation

Please refer to https://dornsife.usc.edu/environmental-studies/ for more information.

**Required readings and other material**

Readings and other materials are provided via blackboard webpage https://blackboard.usc.edu.

Optional textbooks for additional reading –

**Ground rules for classroom** -

- Share responsibility for including all voices in the conversation.
- Listen respectfully.
- Be open to changing your perspectives based on what you learn from others.
- Understand that we are bound to make mistakes in this space.
- Understand that your words have effects on others.
- Take pair work or small group work seriously.
- Understand that others will come to these discussions with different experiences from yours.
- Make an effort to get to know other students. Introduce yourself to students sitting near or in breakout groups with you.
- Understand that there are different approaches to solving problems.

**Tentative Lecture Schedule**

**Presentation and discussion lead:** Students will take responsibility of presenting and leading a discussion based on readings of the week. These ‘student led’ discussions will be held on Fridays and the student will give a short 10 minutes presentation summarizing the readings and then will continue with facilitating a discussion on the topics covered in those readings. A signup sheet will be circulated in the second week of class.

**Participation:** Students are expected to participate actively in class, which includes attending class, reading all assigned material, and participating professionally and productively in the class. Discussion is crucial to this class, please feel free to raise any question, objection, or other thoughts about the topic being discussed. For student led discussion days, everyone will submit questions on discussion board by Thursday midnight.

**Class activities/homework:** Participation in group activities and contributing to the outcome of these assignments is part of class assessment. Class assignments will not be announced ahead of time. There is no make up for these assignments.

**Midterm:** Exam will have short answer definitions and essay questions.
Field Trip: The course will include an overnight trip to Wrigley Marine Science Center (WMSC) on Catalina Island: November 12 & 13 (the University’s COVID protocol will apply). This field trip is designed as a real-world case study of conservation on Catalina Island (marine and terrestrial). During this trip, you will be engaged in lectures, discussions, and reflections on this topic, we will be joined in these activities by students from ENST 499 (Public Engagement for Nature Conservation). There will also be excursions and opportunities for exploration of terrestrial and marine biodiversity in a unique island ecosystem (e.g., guided hikes, snorkeling, and kayaking), and to reflect on the factors that influence public recognition, acceptance, and support of Marine Protected Areas. Lectures and programming will be provided by the instructors for ENST 499 & ENST 344, as well as expert WMSC staff. You will have a short assignment to complete while on Catalina Island (based on the weekend’s lectures, activities, and discussions); you will submit this assignment before we leave the island on Sunday. This assignment is worth 5% of your grade.

While on Catalina Island, you will have a shared room in USC’s WMSC dormitories and meals in the cafeteria. You will only be billed for meals ($6 Breakfast/$7 Lunch/$10 Dinner) directly through your student account, your accommodations and the boat ride to/from the island will be covered by the ENST program. Students must wear either sturdy athletic shoes or hiking boots while hiking on Catalina Island, and on the boat ride to and from the island. For planning purposes, will be asking you to register for the trip (including dietary requirements) so that the Wrigley Staff can prepare housing, meals, and plan for the excursions. If there is any reason that you might not be able to deal with the physical demands of the trip, please come speak to me so that alternative plans can be made. Further details about the trip and the assignment will be provided as we get closer to the date of the trip. Transportation to/from SCMI (where we catch the boat to Catalina) will be decided at a later date. We will have one of the two following options; ENST will provide bus transportation from UPC, in this case we would depart campus at 6:30 am on Saturday November 12th and return back on campus on Sunday November 13th by about 4:30 pm. If we are unable to provide a bus we will arrange for car pools between the two classes. A sign-up sheet for volunteer drivers and passengers will be circulated closer to the date of the trip and more details will be provided about meeting times, etc. If you have questions or concerns, let me know immediately.

Role Play: A role play exercise will be conducted in class. Students will be divided in groups of stakeholders and assigned positions to debate in class to resolve the ethically challenging environmental problem. More information and guidance will be provided separately.

Final Paper: A carefully written paper that succinctly presents the ethical issues in a real case using outside research. The topic will be of the student’s choice, refined in collaboration with the instructor and reflecting the student’s research interests. The final paper will be 10 pages in length and written in the style of an academic paper. The paper will be assessed on the basis of its clarity, quality of research and content, strength of its arguments and clear conclusions.

---

1 Our visit to Catalina will include two lunches, one breakfast and one dinner.
Course Policies

You are expected to have read the course materials by the date it is discussed in class. Roll will be taken periodically in the form of thought exercises, and in-class questions. You are responsible for all information, announcements, date changes, and any other course material presented, regardless of your participation in the classroom.

You will be graded on the basis of your performance on exams, written assignments, critiques, and class participation (e.g., Blackboard assignments, oral presentations, etc.). Exam questions will be drawn from course readings, assignments, lectures, and will include both short answer and essay questions. No make-up midterms or final exams will be allowed without explicit permission from the instructor. Late assignments will be penalized 10% of total points per day.

Grading Scale

Course final grades will be determined using the following scale
A  93-100
A- 90-92
B+ 87-89
B  83-86
B- 80-82
C+ 77-79
C  73-76

Zoom, Policy on Missed Lecture, Assignments, or Exams

ZOOM POLICY FOR THE CLASS: This is an in-person synchronous class so you are expected to be present for each lecture section. This is an interaction heavy class, I will not be allowing students to "Zoom In." Trying to get the best outcome for the class with two audiences is distracting and counterproductive in achieving the learning objectives of the class. If you cannot commit to regular attendance, please let me know and we will work with your advisor to find you a suitable alternative.

We are an in-person university and recorded lectures are not our default setting. That said, I understand that for various reasons we all might need flexibility in attending class. Therefore, I will do my best to record our in-class lectures for students who have to miss class for a valid reason. These recordings will not automatically be posted to Blackboard. If you have to miss a class for a valid reason and you let me know before the class via email I will share the link of the recording with you. Sharing these recordings is prohibited.

UNPLANNED ABSENCES: You may be excused from an exam only in the event of a documented illness or emergency as outlined by university policy. No other excuses for missing exams will be accepted. If you miss a class, quiz or graded activity due to medical illness you must present a valid medical excuse to the Instructor within 48h of the missed examination or quiz. The excuse cannot be to attend a dental appointment, a conference, or other similar reasons.
The reason for missing an examination or quiz must be of a medical nature or totally unavoidable (e.g., a verified automobile collision on the day and time of the examination). Notify the Instructor in writing that you were seen by a physician, making sure that you include: 1) the physician’s name and telephone number, and 2) a statement authorizing us to discuss with the doctor whether you were too ill to take the examination. Note that neither you nor the physician need tell us the nature of your illness. If the excuse is verified, we will accommodate needs. An invalid excuse, or the excuse turned in late, will result in a score of zero for the activity missed. If you miss the final examination and have provided a valid medical excuse within 72 hours of the examination time, a final course grade of incomplete (IN) will be recorded and you will be permitted to take a make-up final examination during the following semester.

PLANNED ABSENCES: Students who wish to miss an examination for observance of a religious holiday should be aware of the University’s policy on such absences, published at: http://orl.usc.edu/religiouslife/holydays/absences.html. Requests for such absences should be made by email to the Instructor at least 2 weeks in advance of the absence. If the absence is approved, a reasonable accommodation will be provided.

Students with Disabilities

Students requesting academic accommodations based on a disability are required to register with the Office of Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Be sure that the letter is delivered as early in the semester as possible. DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday. The telephone number of DSP is 213-740-0776. If a student’s approved accommodation is limited to extra time on examinations, accommodation will be provided. For any other accommodation, such as a private room, translator, etc., students must make prior arrangements with the DSP office 2 weeks before the exam date. For more information please visit the following website: http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html.

Academic Conduct

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” https://policy.usc.edu/student/scampus/part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, http://policy.usc.edu/scientific-misconduct.

Discrimination, sexual assault, intimate partner violence, stalking, and harassment are prohibited by the university. You are encouraged to report all incidents to the Office of Equity and Diversity/Title IX Office http://equity.usc.edu and/or to the Department of Public Safety http://dps.usc.edu. This is important for the health and safety of the whole USC community. Faculty and staff must report any information regarding an incident to the Title IX Coordinator who will provide outreach and information to the affected party. The sexual assault resource
Support Systems

A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the American Language Institute http://ali.usc.edu, which sponsors courses and workshops specifically for international graduate students. The Office of Disability Services and Programs http://dsp.usc.edu provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, USC Emergency Information http://emergency.usc.edu will provide safety and other updates, including ways in which instruction will be continued by means of Blackboard, teleconferencing, and other technology.

Research Support: Need to do research but don’t know where to start? Not sure how to cite a source in your bibliography? Ask a librarian! http://libguides.usc.edu/ General Academic Support: The Kortshak Center for Learning and Creativity provides customized support services to help students transition into college and achieve their academic goals. https://kortschakcenter.usc.edu/ Counseling and Mental Health - (213) 740-9355 – 24/7 on call studenthealth.usc.edu/counseling Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call suicidepreventionlifeline.org Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours/day, 7 days/week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-9355(WELL), press “0” after hours – 24/7 on call studenthealth.usc.edu/sexual-assault Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) - (213) 740-5086 | Title IX – (213) 821-8298 equity.usc.edu, titleix.usc.edu Information about how to get help or help someone affected by harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants.
