PHED 102A – Weight Training

Class Meeting Location: LYON CENTER – Cardinal Room

Course Description:

An introductory course designed to help each student: improve muscular strength; gain knowledge and understanding of weight training theory and practice; develop a personalized weight training program.

Course Objectives:

1. Demonstrate knowledge of anatomy and basic biomechanics.
2. Interpret the physiological adaptations resulting from training.
3. Recognize the importance of nutritional habits to performance and wellness.
4. Develop/create/design an individualized weight training program based on specific goals.
5. Identify various exercises and their purpose in a training program.

Physical Education Program Objectives:

Students will understand the importance of sound health and fitness principles as they relate to better health and will be able to:

- Understand anatomy, basic biomechanical principles and terminology.
- Determine factors involved with development, fitness levels and training strategies.

Students will be exposed to a variety of activities providing them the opportunity to:

- Apply learned fundamental skills.

Students will demonstrate proficiency through knowledge and acquired skills enabling them to:

- Understand and utilize various training methods.
- Assess individual levels of fitness components.
- Identify common health and fitness myths along with trends involved with the evolving nature of physical education.

Course Materials:

Weight training manual provided for each student on **Blackboard**: <http://blackboard.usc.edu>
Class will always meet in the Cardinal Room of the Lyons Center before entering the weight room.
Student ID's are required to enter the building. Please dress appropriately to exercise (gym clothes and athletic shoes), bring water, notebook and pen/pencil.

To improve your physical fitness requires regular participation in class activities. **Arriving late and leaving class early will affect the participation portion of the grade.** In case of absence, you will be held accountable for all work missed.

USC Physical Education IS NOT responsible or any lost, stolen or damaged property. If you choose to bring any valuables to class, it is strongly recommended that they be locked up during class. Locker rooms are available in the PE building and the Lyons Center.

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the exception that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. S Campus, the Student Guidebook, (www.usc.edu/scampus or <http://scampus.usc.edu>) contains the University Student Conduct Code (see University Governance, Section 11.00), while the recommended sanctions are located in Appendix A.

Students requesting **academic accommodations** based on a disability are required to register with Disability Service and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP when adequate documentation is filed. Please be sure the letter is delivered to me as early in the semester as possible. DSP is open Monday-Friday, 8:30 am - 5:00 pm. The office is in the Student Union 301 and the phone number is (213) 740-0776.

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.
