Course Pre-requisites, Co-requisites, and Concurrent Enrollment

SOWK 790a is a pre-requisite to this course.

Students will enter SOWK 790b having completed SOWK 704, 706, 711, 705, 721, 723, 720, and 713. Students in the Accelerated Track will have concurrent enrollment with SOWK 707 and 714. Students in the Standard Track will have concurrent enrollment with SOWK 714 and will have completed 707.

Catalogue Description

Research leading to a doctorate.

Course Description

This course will prepare students to complete Part 1 of the DSW Capstone Project Standards and Guidelines (Areas 1 and 2). In this course, students will add to their understanding of existing information (academic and nonacademic) by considering whose voice is missing from what has been written about the problem area of focus. Students will go into the field and collect data in a variety of ways, building their expertise and understanding of the problem and solution landscape for the specific social problem they are

interested in solving. In learning pods (teams), students will deeply explore and analyze a social problem and existing solutions within the context of a Grand Challenge area.

Course Objectives

1. Course will provide students with opportunities to apply theoretical frameworks and methodological perspectives to Grand Challenges to increase understanding of the problem and solution landscape.
2. Course will provide students with opportunities to collaborate with other students, using a team approach, to build a knowledge network.
3. Course will encourage students to consider a variety of ways to increase their understanding of the problem and solution landscape, incorporating a transdisciplinary approach and diverse points of view.
4. Course will prepare students to produce products that could be of benefit to a variety of stakeholders within their knowledge network.
5. Course will ask students to consider whose voice is missing from the literature and engage in community-based participatory research and use design thinking methodologies to add to their knowledge base.

Course Format / Instructional Methods

The course format will consist of class discussions derived from readings and asynchronous content, independent and group work, and collaboration. Because the exchange of ideas is an integral part of the learning process, students are required to come to class ready to discuss assigned readings and asynchronous content. Students will do considerable research outside of class, including interviews, surveys, observation, consider the arts and other formats to increase their understanding and perspective on the problem and solution landscape. Students will have opportunities to process and discuss this research during the live sessions.

Student Learning Outcomes

1. Students add to the information collected in 790a by incorporating other perspectives and sources into their understanding of the social problem within the context of a specific Grand Challenge for Social Work; specify the target population; and include data about the scope of the problem (e.g., incidence, prevalence, trends, and outcomes).
2. Students will analyze causes of the social problem, including a critical summary and synthesis of evidence that speaks to the reasons that the problem exists, including the system issues and norms that contribute to and maintain the problem. Students will draw from a variety of sources of evidence that involve careful analysis, including interviews, focus groups, surveys, observation, arts, public forums, etc.
3. Students will consider the problem through theoretical and/or explanatory models that may suggest root causes for the specified problem. They will examine the problem through multiple frameworks and methodologies (e.g., human-centered design, person in environment, social justice theories, and community-based participatory research).
4. Students will collaborate with others to build a knowledge network to inform their research and the field of study. Students will consider various stakeholders and their influence/perspective on the problem.
5. Students will provide a thorough and critical assessment of efforts to address the problem, including a critical synthesis of evidence relevant to existing and potential solutions to the

specified social problem, including evidence-based interventions, practice-based evidence, and promising, innovative, or disruptive approaches.

6. Students will identify gaps and opportunities in the solution space. They will discuss attempts by others to address the social problem and the status of those attempts, including a discussion of what has worked, what has not, and why.

See **Appendix A** for an expanded table, which details the competencies and dimensions of competence highlighted in this course. The table also shows the course objective(s), behaviors/indicators of competence, and course content and assignments related to each competency highlighted in the course.

Course Assignments, Due Dates, and Grading

Assignment	Due Date	% of Final Grade
Assignment #1 - Information Gathering Plan, Interview Schedule and Questions	9/5/22	20%
Assignment #2 - Analysis of Key Takeaways from Information Gathering	10/24/22	20%
Assignment #3 - Final Assignment (Paper)	11/21/22	35%
Assignment #4 - Final Assignment (Presentation)	11/21 & 11/28/22*	15%
Class Participation	On-going	10%

Each of the major assignments is described below.

Assignment 1

Information Gathering Plan, Interview Schedule and Questions

Due: Week 9/5/22 by 11:59pm PT

Students will develop a plan to collect information from the field. This can include a variety of sources and methods for collecting information. A template will be provided for students and should detail how, where and when they will collect information.

Students will submit individual assignments on the VAC using template provided by faculty.

Assignments must adhere to APA guidelines as needed (7th edition).

This assignment comprises 20% of the course grade.

This assignment relates to course objective 5 and DSW program competency 2.

Assignment 2

Analysis of Key Takeaways from Information Gathering

Due: 10/24/22 by 11:59pm PT

Students will provide an analysis of information collected and consider what information is still missing, needs to be collected or further explored.

Students will submit individual assignments on the VAC using template provided by faculty for Assignment #1.

This assignment comprises 20% of course grade.

This assignment relates course objectives 1 – 3, 5 and DSW program competencies 1 - 2.

Assignment 3

Final Assignment (Paper)

Capstone: Area Expertise / Problem and Solution Landscape Analysis (Part 1)

Due: 11/21/22 by 11:59pm PT

Students will produce a paper of publishable quality that combines their knowledge of academic and nonacademic literature from 790a with knowledge learned through Information Gathering in 790b. Students will update and expand the draft from 790a to include the sections, detailed below. The primary goal of work in Capstone Part 1 is to develop deep understanding of issues surrounding a particular social problem, existing solution approaches, and to identify opportunities to enhance or improve upon existing solutions. Students should consider interdisciplinary perspectives of the problem as well as history, relevant theory, and potential policies that have played a role in perpetuating this problem. Sections include:

- Abstract
- Section 1: Grand Challenge
- Section 2: Methods for understanding the problem (i.e. review of the literature and information gathering)
- Section 3: Wicked Problem (with data to demonstrate prevalence)
- Section 4: Problem Analysis (impacts and theories of causation)
- Section 5: Analysis of existing solutions to the problem and their effectiveness (include frameworks and theories)
- Section 6: Stakeholder Analysis
- Section 7: Knowledge gaps
- Section 8: Opportunities for new solutions
- Appendices:
 - Information gathering tools
 - Note-taking matrix (optional)
 - Stakeholder analysis
 - Design Criteria Template
 - Solutions Template
 - Final Infographic

Assignments should be no more than 35 pages excluding abstract, title page, reference page and appendices. Papers must comply with APA (7th edition) guidelines.

Faculty will utilize the DSW Capstone Project Standards and Guidelines to assess whether students have met expectations for completion with a passing grade.

This assignment comprises 35% of course grade.

This assignment relates to course objectives 1-5 and DSW program competencies 1 and 2.

Assignment 4

Final Assignment (Presentation)

Due: 11/21/22 and 11/28/22 (as assigned by faculty) in live session

Students will provide a compelling and concise presentation that details their understanding of the problem and solution landscape in one of the live sessions.

Details on presentation length and format will be provided by faculty.

This assignment comprises 15% of course grade.

This assignment relates to course objectives 1-5 and DSW program competencies 1, 2, 9.

Class Participation

All Weeks

Given the group-learning format of this course, class participation is critical to the success of each student and their learning pods. Students are expected to come to live sessions prepared to actively engage in thoughtful dialogue with their learning pods and classroom colleagues. Excellent class participation includes insightful questions and comments, use of literature and other sources to support ideas when relevant, and regular feedback that helps to advance the work of their learning pods.

This assignment comprises 10% of course grade.

SOWK 790b is a graded as a Credit (CR) / No-credit (NC) course. The final grade in this course will either be a Credit (CR) or No-credit (NC). To receive a CR in this course, a student's final grade must be an 83 (B) or higher. Students who score 82 or below, will receive a NC in this course.

Individual assignments will be based on the following:

Grade Points		Letter Grades	
3.85 – 4.00	A	93 – 100	A
3.60 – 3.84	A-	90 – 92	A-
3.25 – 3.59	B+	87 – 89	B+
2.90 – 3.24	B	83 – 86	B
2.60 – 2.89	B-	80 – 82	B-
2.25 – 2.59	C+	77 – 79	C+
1.90 – 2.24	C	73 – 76	C
		70 – 72	C-

See **Appendix B** for additional details regarding the definitions of grades and standards established by faculty of the School.

Attendance and Participation

Students' active involvement in the class is considered essential to their growth as practitioners. Consistent attendance, preparation for and participation in class discussions and activities, timely completion of coursework and assignments, and personal conduct that fosters a respectful, collegial, and professional learning environment are expected. Having more than 2 unexcused absences in class may result in the lowering of the grade. For VAC and remote/hybrid Ground courses, substantive participation includes maintaining an active screen in live sessions and completing all asynchronous content and activities prior to the scheduled live class discussion. Failure to complete 2 or more asynchronous units before the live class, without prior instructor permission, also may result in a lowered grade.

Class participation will be assessed according to the following criteria:

“A” grade range: Very Good to Outstanding Participation: Contributions in class reflect thorough preparation, and participation is substantial. Ideas offered are always substantive. Regularly provides one or more major insights and comments that provoke deeper thought. If this person were not a member of the class, the quality of discussion and class activities would be diminished markedly.

“B” grade range: Good Participation: Contributions in class reflect solid preparation. Ideas offered are usually substantive, and participation is regular. Provides generally useful insights and some comments that provoke thought. If this person were not a member of the class, the quality of discussion would be diminished somewhat.

“C+” or “C”: Adequate Participation: Contributions in class reflect some preparation. Ideas offered are somewhat substantive. Provides some insights, but seldom offers comments that provoke deeper thought. Participation is somewhat regular. If this person were not a member of the class, the quality of discussion would be diminished slightly. Please note: The minimum passing grade at the graduate level is “C”.

“C-” or “D”: Inadequate Participation: Says little in class and does not adequately participate in activities or present insights or ideas. Does not appear to be engaged. Submits late work. If this person were not a member of the class, the quality of discussion would not be affected.

“F”: Nonparticipant/Unsatisfactory Participation: Misses class. When present, contributions in class, if any, reflect inadequate preparation. Ideas offered are seldom substantive, and behavior may be inappropriate and/or disrespectful. Unable to work effectively on in-class assignments/activities and detracts from the learning process. Regularly misses assignment deadlines, if work is submitted at all.

Required Instructional Materials and Resources

Required Textbooks

In addition to the required and recommended readings below, students will be required to do significant research throughout the semester on their problem of interest. Students will be required to read about the problem and solution landscape each week.

- Friedman, B. (2021). *Community-Based Participation Action Research: It's all about the community*. Cognella Academic Publishing

- <https://grandchallengesforsocialwork.org/>
- American Psychological Association. (2020). *Publication manual of the American Psychological Association: The official guide to APA style*. (7th ed.). American Psychological Association.

DSW PROGRAM GOALS AND COMPETENCIES

Goals

1. The foundation for the DSW curriculum and student academic products rests on three pillars: (1) problem definition within the Grand Challenges for Social Work; (2) innovative design; and (3) executive leadership in human service organizations and community contexts.
2. Student academic work will culminate in a substantive advance in practice or policy related to one of the Grand Challenges for Social Work.
3. Aligned with the goals for a science of social work, curricula will be multi- and interdisciplinary and reflect diverse public and private sector perspectives on social innovation and organizational problem-solving in complex systems.
4. Courses will emphasize bold action leading to scaling of programs, disruption, or other changes that promote social justice and human potential.
5. Graduates will emerge as effective leaders in social work or allied fields, prepared to excel in executive management roles.
6. Graduates will emerge as capable public intellectuals who exemplify the core values, ethical principles, and standards of the NASW Code of Ethics.

Program Competencies/Student Learning Outcome Objectives

1. Confront, evaluate, and use large ideas grounded in the Grand Challenges for Social Work as defined by the American Academy of Social Work and Social Welfare (AASWSW).
2. Leverage strategies to assess the existing social and practice landscape as a basis for designing new responses to complex social problems.
3. Apply relevant social work and social science theories of problem causation to develop ideas for change, program or policy implementation, and evaluation.
4. Master creative, expansive, and rigorous design principles that advance innovation and invention in social solutions.
5. Effectively lead others in future efforts to brainstorm, refine, and implement forward-thinking solutions to complex social problems across organizational boundaries.
6. Accurately map the organizational and policy environment affecting options for social change.
7. Use logic models to carefully plan for and maximize impact with proposed interventions.
8. Organize financial and program data for decision-making, communication, and evaluation to improve program and policy outcomes in human service organizations.
9. Confidently employ a variety of media and methods to influence and communicate with professional, political, academic, and general public audiences.
10. Create positive social impact in complex systems and at scale.

Appendix B: Definitions of Grades and Standards Established by Faculty of the School

Within the USC Suzanne Dworak-Peck School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School:

1. Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.
2. A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.
3. A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.
4. A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.
5. A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement.
6. Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

Appendix D: Suzanne Dworak-Peck School of Social Work Diversity, Equity, and Inclusion Statement

At the USC Suzanne Dworak-Peck School of Social Work, we aspire to promote diversity, equity and inclusion in our courses and professional practice. We value the diverse backgrounds and perspectives that our students bring into the classroom as strengths and resources that enrich the academic and learning experience. We offer and value inclusive learning in the classroom and beyond. We integrate readings, materials and activities that are respectful of diversity in all forms, including race, ethnicity, culture, gender identity and expression, sexual orientation, age, ability and disability, socioeconomic status, religion, and political perspectives. Collectively, we aspire to co-create a brave space with students and instructors to critically examine individual and collective sources of bias, prejudice, discrimination, and systematic oppression that affect the ability of people and communities to thrive. In this way, we fulfill our professional responsibility to practice the [NASW Code of Ethics](#), abide by the [CSWE Educational Policy and Accreditation Standards](#), and address the [American Academy of Social Work and Social Welfare, Grand Challenges for Social Work](#).

Appendix E: University Policies and Guidelines

Attendance Policy

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (fatouros@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements in advance to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to [SCampus](#) and to the [USC School of Social Work Policies and Procedures](#) for additional information on attendance policies.

Statement on Academic Conduct

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Recording a university class without the express permission of the instructor and an announcement to the class, as well as distributing or using recordings of university lectures or classes without the express permission of the instructor, for purposes other than individual or group study, also constitute violations of the USC Student Conduct Code.

Please familiarize yourself with the discussion of plagiarism, unauthorized recording of university classes, and other forms of academic dishonesty and misconduct in SCampus, Part B, Section 11, "Behavior Violating University Standards," as well as information in SCampus and in the university policies on scientific misconduct.

Statement about Incompletes

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official "Incomplete Completion Form."

Policy on Late or Make-up Work

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

Policy on Changes to the Syllabus and/or Course Requirements

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

Code of Ethics of the National Association of Social Workers (Optional)

Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly
<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English>

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
