Course Description

“No experience is too small to be excellent.”
– Matt Conover, Disney Executive

Designing for Live Experiences provides students insights into the world of physical experiential design. The course is designed to push students to invent environmental experiences that are entertaining, engaging, informative, artistic, sustainable, revenue generating and/or potentially philanthropically based.

Through the study of case studies, students will begin to develop their own understanding of creating innovative and awe-inspiring installations that are based in user-centered design. Our goal is to create content rich experiences that are not only enjoyable but informative. Case studies and project areas may include: airports, exhibitions, retail, health care, theme parks, and service design.

The course includes lectures, workshops, readings, discussions, class activities, and collaborative and independent projects; students will acquire applicable skills for creating innovative immersive experiences and events. Students must combine, and/or build upon their knowledge and skill in the many design disciplines to create transformative experiences that shift user’s perspectives. To create a comprehensive solution, we must establish relevance for a topic and inspire users from concept to prototyping, to presentation. We will use creative process to secure our understanding of these techniques and to ensure we have addressed each stage of problem solving necessary for a robust, and inclusive solution.

Covering a range of mediums related to physical experience design, the course has a special emphasis on learning styles and installation detailing; such as infrastructure, new and existing build and furniture solutions, lighting, media, and graphics applications. All of these mediums combine to create experiential and visual hierarchy. We will look at examples of multidisciplinary collaborations in physical space, and work through projects designed to explore and build your own solutions.
Learning Objectives and Outcomes
1. Understand and explain how to create unique, content driven experiences
2. Know and apply design-based problem-solving methodologies
3. Be confident realizing immersive environments and solutions
4. Learn the dynamics of social interactions created by immersive environments

Prerequisites: ACAD 176 Rapid Visualization
Co-Requisites: None.
Concurrent Enrollment: None.

Recommended Preparation: Install Sketch up, Rhino, Solidworks, CAD, Vectorworks or similar to visualize solutions for the course. Software selection is up to each student. We will also encourage hand-drawn visual assets and studies as we work. We will strive to create plans and elevations and/or renderings for each project. Maker space training.

Course Notes
The course will cover a range of deliverable types. Each is graded according to the supplied assignment rubric, when the project scope is shared. All assignments will be discussed in class prior to address outstanding questions and posted for reference.

Students are responsible for all readings, lectures, and assignments, including: homework, in-class work and participation, discussion and presentations. Designing for Live Experiences is a collaborative lecture, discussion, and making class. Students must engage in constructive critique sessions to provide feedback to their peers.

Grading Scale
Grades will be determined using the following scale:
A: (95-100%) A-: (90-94%)
EXCELLENT – Means that your work is excellent. You have a thorough understanding of the course content, theories and the ideas presented in lectures and readings. Your grades on all your assignments, attendance and participation are consistently excellent. You are engaged and actively participate in discussions and with the assignments. All of your assignments are thoroughly researched and turned in on time. You consistently demonstrate a high level of comprehension in your discussions and through your assignments.

B+: (87-89%) B: (83-86%) B-: (80-83%)
GOOD – Means that your work is good, and you demonstrate an above average understanding of the course content. Your grades on all your assignments, attendance and participation are consistently good or excellent. Ideas presented in class are understood and is reflected in your assignments. Your concepts are good, if not excellent, and you are usually able to bring them to life visually as needed.

C+: (77-79%) C: (73-76%) C-: (70-73%)
AVERAGE – Means that your work, attendance, and participation are fair (average). You understand some of the ideas, themes and concepts presented in class. Your attendance and participation are average. Your performance in critiques are average.

D+: (67-69%) D: (60-66%)
BELOW AVERAGE – Means that your work was below average. You did not understand most of the ideas presented in class and did not adequately demonstrate comprehension in your assignments. Assignments were routinely not turned in or turned in on time. Your assignments are mediocre or poor and you were not able to communicate comprehension. Your attendance and participated were poor.

F: (0-59%)
FAILING – Means that your work was poor or missing. You didn’t understand the majority of the ideas presented in class and it is reflected in your work. Your concepts and ideas were poor or lacking and/or your work was not turned in. You did not attend and participate enough to pass.

Assignment Rubrics
In most cases, student work will be assessed based on the following criteria:
- Level of execution on assignments.
- Degree of complexity of the assignment goal.
- Innovative application of tools and concepts.
- Knowledgeable integration of relevant course material used to create design solution.
- Thorough display of student’s strategy in creating and executing their solutions.

Assignment Submission Policy
Assignments must be submitted to the google drive, AND as a URL submission to Blackboard, in advance of the class due. Assignments submitted late will be accepted but will incur the following grade penalties: 24 hours after deadline is a 10% deduction, 24-48 hours after the deadline is a 20% deduction, 48 hours to 3 days late is a 50% deduction. Submissions more than 3 days late will receive NO CREDIT, unless approved in advance by the instructor. Please note deliverable criteria as sighted on each assignment rubric (as shared in class and course materials), as deductions will be incurred by inaccurate submission processes.

Grading Timeline
Grades for each assignment to be shared within 2-3 weeks of submission. Grading notifications will go out via Blackboard system in RESPONSE to url submissions on Blackboard.

Students will be notified of their standing in detail after the midterm assignment is graded.
Students are welcomed, and encouraged, to check in at any time regarding their standing in the class.

**Academy Attendance Policy**

The Academy maintains rigorous academic standards for its students and **on-time attendance** at all class meetings is expected. Each student will be allowed two excused absences over the course of the semester for which no explanation is required. Students are admonished to not waste excused absences on non-critical issues, and to use them carefully for illness or other issues that may arise unexpectedly. Except in the case of prolonged illness or other serious issue (see below), no additional absences will be excused. Each unexcused absence will result in the lowering of the final grade by ⅓ of a grade (e.g., an A will be lowered to A-, and A- will be lowered to a B+, etc.). In addition, being tardy to class will count as one-third of an absence. Three tardies will equal a full course absence.

*An established pattern of tardy and/or disruptive behavior may result in being asked to leave the class for that day, generating a full absence.*

*Attendance will be taken at the beginning of each class. It is your responsibility to ensure your attendance recording at the start of each class.*

*In the event of online classes, you are required to submit a chat text entry (or similar) to record your attendance in class.*

*If you are more than 15 mins late for a class–without prior permission from the instructor–it will be counted as an absence.*

Students remain responsible for any missed work from excused or unexcused absences. Immediately following an absence, students should contact the instructor to obtain missed assignments or lecture notes and to confirm new deadlines or due dates. Extensions or other accommodations are at the discretion of the instructor.

Automatically excused absences normally may not be used for quiz, exam or presentation days. Using an excused absence for a quiz, exam or presentation, such as in the case of sudden illness or other emergency, is at the discretion of the instructor.

In the case of prolonged illness, family emergencies, or other unforeseen serious issues, the student should contact the instructor to arrange for accommodation. Accommodation may also be made for essential professional or career-related events or opportunities. Additionally, students who need accommodations for religious observations should provide advanced notice to instructors and student athletes should provide Travel Request Letters. All accommodations remain at the discretion of the instructor, and appropriate documentation may be required.

**Fall 2023 addendum:**

- Unless students provide an accommodation letter from USC’s Office of Student Accessibility Services (OSAS) or a letter from IYA Student Services detailing visa or travel restrictions, attendance and active participation is expected in the classroom. Any student with such accommodations should submit their accommodation document to the instructor as soon as possible to discuss appropriate accommodations. Either classroom recordings or live remote access to the class via Zoom will be provided.
- Students who are experiencing illness should not attend class in person. Please inform the instructor in advance of any class sessions that you can’t attend for medical reasons, and
accommodations will be arranged to view recorded lectures and submit alternatives to any missed class participation. Students will not be penalized for not attending class in person under these circumstances.

- In the event that you find yourself experiencing COVID-19 related symptoms, in keeping with university recommendations, you should Stay home! This is the best way to prevent spreading COVID-19 as supported by scientific evidence; Please do not come to an in-person class if you are feeling ill, particularly if you are experiencing symptoms of COVID-19.

Iovine and Young Hall Cleanout

The Academy is unable to store student projects and materials beyond the end of the semester. Students must remove all projects and personal materials from the Creators Studio, lockers/locker room, and other classrooms by the end of each semester. **All projects and materials left in Iovine and Young Hall will be discarded two days after final exams end. No exceptions.**
**Classroom norms**
Throughout the course, we will be using a variety of tools to create practice work. Please be prepared with laptop, cellphone, and sketch pad as each of these items may be employed at any given time. It is understood that technology is key to the contemporary learning environment, but it *should not hinder* communication and comprehension between instructor and student, nor be a detractor to others around you.

Please stay present in class or group discussions, as this will be reflected in your participation grade.

**Zoom etiquette**
The university recommends including a "Netiquette" or "internet etiquette" that describes the recommended communication and behavior of online communication. In this class we hope cameras will be on when attending online, unless you have checked in with the instructor ahead of time. All students are encouraged to contact the instructor with questions or concerns about complying with the policy and to share any outstanding needs or concerns for an accommodations plan.

**Synchronous session recording notice**
Some, but not all, synchronous sessions will be recorded and provided to students asynchronously (through recorded Zoom sessions, integrated into Blackboard).

All students are reminded that USC has a policy that prohibits sharing of any synchronous and asynchronous course content outside of the learning environment.

SCampus Section 11.12(B)
Distribution or use of notes or recordings based on university classes or lectures without the express permission of the instructor for purposes other than individual or group study is a violation of the USC Student Conduct Code. This includes, but is not limited to, providing materials for distribution by services publishing class notes. This restriction on unauthorized use also applies to all information, which had been distributed to students or in any way had been displayed for use in relationship to the class, whether obtained in class, via email, on the Internet or via any other media. (See Section C.1 Class Notes Policy).

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on Research and Scholarship Misconduct.

Students and Disability Accommodations:

USC welcomes students with disabilities into all of the University’s educational programs. The Office of Student Accessibility Services (OSAS) is responsible for the determination of appropriate accommodations for students who encounter disability-related barriers. Once a student has completed the OSAS process (registration, initial appointment, and submitted documentation) and accommodations are determined to be reasonable and appropriate, a Letter of Accommodation (LOA) will be available to generate for each course. The LOA must be given to each course instructor by the student and followed up with a discussion. This should be done as early in the semester as possible as accommodations are not retroactive. More information can be found at osas.usc.edu. You may contact OSAS at (213) 740-0776 or via email at osasfrontdesk@usc.edu.

Support Systems:

Counseling and Mental Health - (213) 740-9355 – 24/7 on call studenthealth.usc.edu/counseling
