I will provide supplemental reading and visual information for you on Blackboard.

I. Learning Outcomes

1. Develop an appreciation for pedagogical methods in science.
2. Develop the ability to properly apply pedagogical methods in science.
3. Understand teaching technology and resources specific to teaching science at USC.

II. Course Description

This is a 2-credit TA training course designed specifically for graduate students in the Molecular and Computational sections of the Department of Biological Sciences, USC Dana and David Dornsife College of Letters, Arts and Sciences. One of the main goals of the course is to help students to become thoughtful and inspiring teachers, encouraging not just their immediate success in the classroom, but their long-term development as teachers. In addition to the basic teaching skills, the course will also focus on specific challenges and strategies in teaching Molecular Biology and Computational Biology. Concurrent registration or prior completion of this course is a condition of being assigned a first Teaching Assistantship in Molecular and Computational Biology.

III. Grading

This course will be taught Credit/No Credit. Each student will be assigned to give more than one presentation (specific number depends on the students enrolled in the class) that will be critiqued by the rest of the class. The instructor will lead and coordinate the critique discussion. Credit will be based on quality of presentation, class participation and reading assignments.

IV. SCHEDULE

Week 1, Course Introduction, Teaching Tools, Building Community, Q/A

Week 2, Pedagogical Methods in Science

Week 3, OSAS, Testing, Grading and Cheating,

Week 4, Teaching Technology and Resources

Week 5, Q&A with Experienced TA's

Weeks 6-15, Q/A, Student presentations, followed by class discussion

V. Academic Conduct

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

VI. Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on [Research and Scholarship Misconduct](#).

Students and Disability Accommodations:

USC welcomes students with disabilities into all of the University's educational programs. The Office of Student Accessibility Services (OSAS) is responsible for the determination of appropriate accommodations for students who encounter disability-related barriers. Once a student has completed the OSAS process (registration, initial appointment, and submitted documentation) and accommodations are determined to be reasonable and appropriate, a Letter of Accommodation (LOA) will be available to generate for each course. The LOA must be given to each course instructor by the student and followed up with a discussion. This should be done as early in the semester as possible as accommodations are not retroactive. More information can be found at osas.usc.edu. You may contact OSAS at (213) 740-0776 or via email at osasfrontdesk@usc.edu.
