

SYLLABUS:**QBIO 493: Quantitative Biology Honors Seminar, Fall 2023**

This course is a required course for students majoring in Quantitative Biology (<http://qbio.usc.edu>) with Honors distinction.

Time and Location: Mondays, 3:30-5:10 pm, RRI 441

Course Instructor:

Dr. Geoffrey Fudenberg, fudenberg@usc.edu (office hours: Tuesday 4:00 pm)

Introduction: The Quantitative and Computational Biology Section offers a Quantitative Biology (QBIO) major. This major allows biology students to achieve a broad background in the quantitative sciences such as computer science and statistics that are essential for modern data driven biological science.

Course Objectives: The goal of this honors seminar is to stimulate your interest in biological research and to develop your ability to communicate scientific ideas effectively. QBIO 493 includes a particular focus on quantitative analysis of biological data.

Expectations: One primary means for achieving the course goals is to get involved in academic research in the field of quantitative biology. Students enrolled in QBIO 493 are expected to do research in a lab of their choice approved by the instructors. Students are expected to give feedback to their peers on their presentations.

Course Requirements: Each QBIO 493 student is required to give presentations during the semester. This includes: (i) a presentation on a recent paper using computational biology methodology; (ii) presentation of their own research. A schedule for presentations will be generated early in the semester.

Grading: Course grades will be based both on presentations and class participation as follows:

% of Grade	Criteria
90 %	Presentations (Flash talk, Paper presentation, Chalk talk, Research Talk)
10 %	Participation and discussion of other presentations

Students are expected to ask questions and exchange ideas freely. Each student should be prepared to ask at least one question by the end of each presentation.

Statement for Observance of Religious Holidays: USC's policy grants students excused absences from class to observe religious holidays: <http://orl.usc.edu/life/calendar/absences/>

In this case, please contact your instructor in advance to agree on alternative course requirements.

Statement for Students with Disabilities: Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me (or to TA) as early in the semester as possible. DSP is located in STU 301 and is open 8:30 a.m.–5:00 p.m., Monday through Friday. The phone number for DSP is (213) 740-0776.

Statement on Academic Integrity: USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. *Scampus*, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

Statement on Academic Conduct and Support Systems

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.
