Course Description

A second semester of Intermediate Directing, the core of the course will focus on the “workshop concept” of learning. The technique of creating “moments” will be the main area of study.

Through in-class and outside exercises, each student will work on how best to block moments, as well as how to cover them and why and how to move the camera.

Each student will direct 4 exercises; two in-class(S1,S2) and two outside-of-class(E1, E2).

Each exercise will be screened in class with Instructor highlighting what works and doesn't, incorporating the entire class; adding suggestions for improvements.

In-Class Exercises:

S1 - the scenes and actors will be provided.

S2 - students will pick their own scenes and actors, can be part of E2

*We'll create four groups of 4 students who will each go on the same night

Exercises:

E1 - contain at least one beat and one impactful moment

E2 - contain two beats and one impactful moment where the blocking helps drive the beat and moment

Learning Objectives

To develop specific skills of filmmaking - from the POV of the Director; the emphasis being on blocking and camera – how they relate to creating moments.

- How to analyze a scene*
- How to direct a 2-character scene with a moving master*
- How to create a moment within a scene*
- How to create beats within a scene*
- How to properly block and cover a scene*

Course Notes

All mobile devices, laptops, and tablets are not permitted for reasons to be discussed on the first day.

This is a directing class where the crucial technique of how to create moments will be explored. It is not a class suited to explore projects that entail hazardous

conditions, stunt coordinators, high budget productions, etc. It is a 2 credit class with one Professor, so budgets and exercises will reflect this.

Students will receive a letter grade at the end of the class as an evaluation of their overall work in the course, in accordance with the policies and practices of USC and the School of Cinematic Arts. (Please see the “Grading” section in the Syllabus for further details.)

Description and Assessment of Assignments

S1 - Each student will direct & shoot a scene where both actors and scenes are provided.

S2 - Each student will direct & shoot a scene where they provide both scene and actors, 3 page maximum. Can evolve/be a part of E2.

E1 - contain at least one beat and one impactful moment, TRT: 3 minutes.

E2 - contain two beats and one impactful moment where the blocking helps drive the beat and moment, TRT: 4 minutes.

*All projects are fiction(docs are not allowed). All projects will be filmed within the accepted SCA “zone” and adhere to all SCA safety guidelines, no exceptions. There will be no actions in the exercises which require a stunt coordinator, as the directing techniques practiced here will be movement of character and camera, not physical action or violence. No working with minors, no exceptions.

Covid-19 Production Protocols

Will be provided on first day of class and uploaded to class Drove.
