## Course Description

If we begin with the fundamental belief that all beings are interconnected, our planet, thoughts, actions, and praxes can reflect unity. By balancing traditional learning pedagogy with experiential techniques, we can collectively bridge the gap between ourselves and our planet. Throughout the course, students will complete readings, submit brief papers, and give short presentations. They will immerse themselves in nature through various modalities and submit reflections on these experiences. The course is designed for students who are interested in exploring self-care modalities as a means of sustaining one's own energy. This energy can then focus on the discovery of alternative ways to integrate sustainability practices into an everyday routine. Students will leave the course with a comprehensive self-care, planet-care strategy.

## Learning Objectives

- Develop the intrinsic connection between oneself and the planet, understanding multiple viewpoints on eco-philosophy, and reflecting on those viewpoints.
- Integrate self-care modalities as a means of sustaining one's own energy and mitigating climate anxiety.
- Grow awareness of the environment through immersion in campus biodiversity.
- Develop one's Eco-Activist Archetype (based on the "One Green Thing" model) to strategize how to best contribute to environmental stewardship..
- Develop both listening and sharing skills by participating in an ongoing cohort.
- Construct a comprehensive personal self-care, planet-care routine.

## Required Readings:

- Select Segments: *Braiding Sweetgrass for Young Adults: Indigenous Wisdom, Scientific Knowledge, and the Teachings of Plants*, Robin Wall Kimmerer
- Select Segments: *Re-Generation: Ending the Climate Crisis in One Generation*, Paul Hawken
- Select articles posted on Blackboard

### **Course Notes:**

Students will be asked to participate in physically active sequences, breathing exercises, and meditation techniques but will not be graded based on their ability to execute these exercises but rather on their understanding of the techniques. Proficiency will be assessed through projects and assignments.

### **Assignments:**

Students will participate in weekly discussions, engage in self-care-related practices, and write reviews on guest lecturers, as well as midterm and final projects. All students will exit the course with a personalized and comprehensive self-care routine. Specific assignments TBD.

### **Grades**

Sustainability & Self-Care is a complex topic and grades will be a combination of several components. Students will be graded on their written reflections on the experiential learning assignments, speaker reviews, group discussions, and midterm and final projects.

Students are responsible for the quality of their engagement with the course material and the activities related to it. All work is to be typed and submitted to Blackboard. Format: Double-spaced, Times New Roman, 12-point font.

### **Grading Scale**

There are 100 total points possible. The overall grading scale is as follows

A 95 / A- 90 / B+ 87 / B 83 / B- 80 / C+ 77 / C 73 / C- 70 / D+ 67 / D 63 / D- 60 / F 59, and below

### **Grading Criteria**

Book Review 10%

Participation and Discussion 20%

Reflections and Speaker Reviews 20%

Midterm Project 25%

Final Project 25%

### **Zoom Guidelines**

This is an in-person class focused on live engagement. However, if you are experiencing symptoms, please stay home. Some classes will be available on Zoom, but not all. If you are participating via Zoom and have a question, unmute yourself and interrupt (I will most likely not see the chat.) Your camera must remain on for the entirety of the class session.

### **Participation Expectations**

Students are expected to be present for all lectures in person, in real time.

If you are looking for a remote class that is assignment focused, this class is not for you. The course is offered through the Department of Experiential Learning. Therefore the experiential component will be the focus. If you anticipate multiple absences throughout the course, please consider another course that would support your schedule.

Class participation grading scale per class starting Week #2

- 1 pts. = full participation
- 0.75 pts. = partial participation
- 0.5 pt. = excused absence
- 0 pt. = absence/no participation

### Assignment Submission Policy

Assignments are to be submitted to Blackboard before the deadline. See course outline for deadlines.

### Communication and Office Hours

Students are encouraged to reach out by email and can expect a response within 48 hours. Office hours upon request.

## **Statement on Academic Conduct & Support Systems**

### **Academic Integrity**

The University of Southern California is a learning community committed to developing successful scholars and researchers dedicated to the pursuit of knowledge and the dissemination of ideas. Academic misconduct, which includes any act of dishonesty in the production or submission of academic work, comprises the integrity of the person who commits the act and can impugn the perceived integrity of the entire university community. It stands in opposition to the university's mission to research, educate, and contribute productively to our community and the world.

All students are expected to submit assignments that represent their own original work, and that have been prepared specifically for the course or section for which they have been submitted. You may not submit work written by others or "recycle" work prepared for other courses without obtaining written permission from the instructor(s).

Other violations of academic integrity include, but are not limited to, cheating, plagiarism, fabrication (e.g., falsifying data), collusion, knowingly assisting others in acts of academic dishonesty, and any act that gains or is intended to gain an unfair academic advantage.

The impact of academic dishonesty is far-reaching and is considered a serious offense against the university. All incidences of academic misconduct will be reported to the Office of Academic Integrity and could result in outcomes such as failure on the assignment, failure in the course, suspension, or even expulsion from the university.

For more information about academic integrity see [the student handbook](#) or the [Office of Academic Integrity's website](#), and university policies on [Research and Scholarship Misconduct](#).

Please ask your instructor if you are unsure what constitutes unauthorized assistance on an exam or assignment, or what information requires citation and/or attribution.

### **Student & Disability Accommodations**

USC welcomes students with disabilities into all of the University's educational programs. [The Office of Student Accessibility Services](#) (OSAS) is responsible for the determination of appropriate accommodations for students who encounter disability-related barriers. Once a student has completed the OSAS process (registration, initial appointment, and submitted documentation) and accommodations are determined to be reasonable and appropriate, a Letter of Accommodation (LOA) will be available to generate for each course. The LOA must be given to each course instructor by the student and followed up with a discussion. This should be done as early in the semester as possible as accommodations are not retroactive. More information can be found at [osas.usc.edu](http://osas.usc.edu). You may contact OSAS at (213) 740-0776 or via email at [osasfrontdesk@usc.edu](mailto:osasfrontdesk@usc.edu).
