

CTAN 200g

The Rise of Digital Hollywood

Spring 2024 • 4 units

**With TOM SITO,
Professor of Animation and
Digital Arts**

Explore the birth and evolution of computer graphics!

The story of the computer technologies that transformed Hollywood in the early 1990s is the result of decades of development by scientists, engineers, movie visual effects artists, the military, games makers, entrepreneurs, academia and experimental filmmakers.

**John C. Hench Division of Animation + Digital Arts
School of Cinematic Arts**
