 - Black Identity and Well-being discussion (section 48026)
 - Latinx Identity and Well-being discussion (section 48037)
 - Asian and/or Pacific Islander and Well-being discussion (section 48038)

COURSE DESCRIPTION

Students learn about various themes of well-being, and how to promote well-being for themselves and their communities. OT-100 THRIVE was created *for* students, *by* students, and serves to help them live life to its fullest through personal reflection and insight, shared connection with others, engagement with campus resources, exploration of diversity and inclusive practices, and translation of well-being knowledge into their daily lives.

1 vs. 2-unit options: Students enrolled in the 1-unit option are expected to participate in the weekly lecture and discussions sessions; no outside-of-class homework is required. Students enrolled in the 2-unit option, in addition to the weekly lectures and discussions, will engage in a semester-long project of their choosing that applies the concepts presented in OT-100 THRIVE outside of the classroom. Students will meet periodically with their faculty member throughout the semester, and submit their project at the end of the semester.

GRADE BREAKDOWN

Grade Breakdown	% of grade
Lecture engagement and reflection All completed in-class.	25%
Discussion section engagement Including completion of in-class activities.	70%
VISION Capstone Completed in-class during the last discussion section meeting.	5%
TOTAL	100%

USC Mrs. T.H. Chan
Division of Occupational Science
and Occupational Therapy
