Identification

Research interests of the student are identified, and potential research opportunities discussed.

Matching

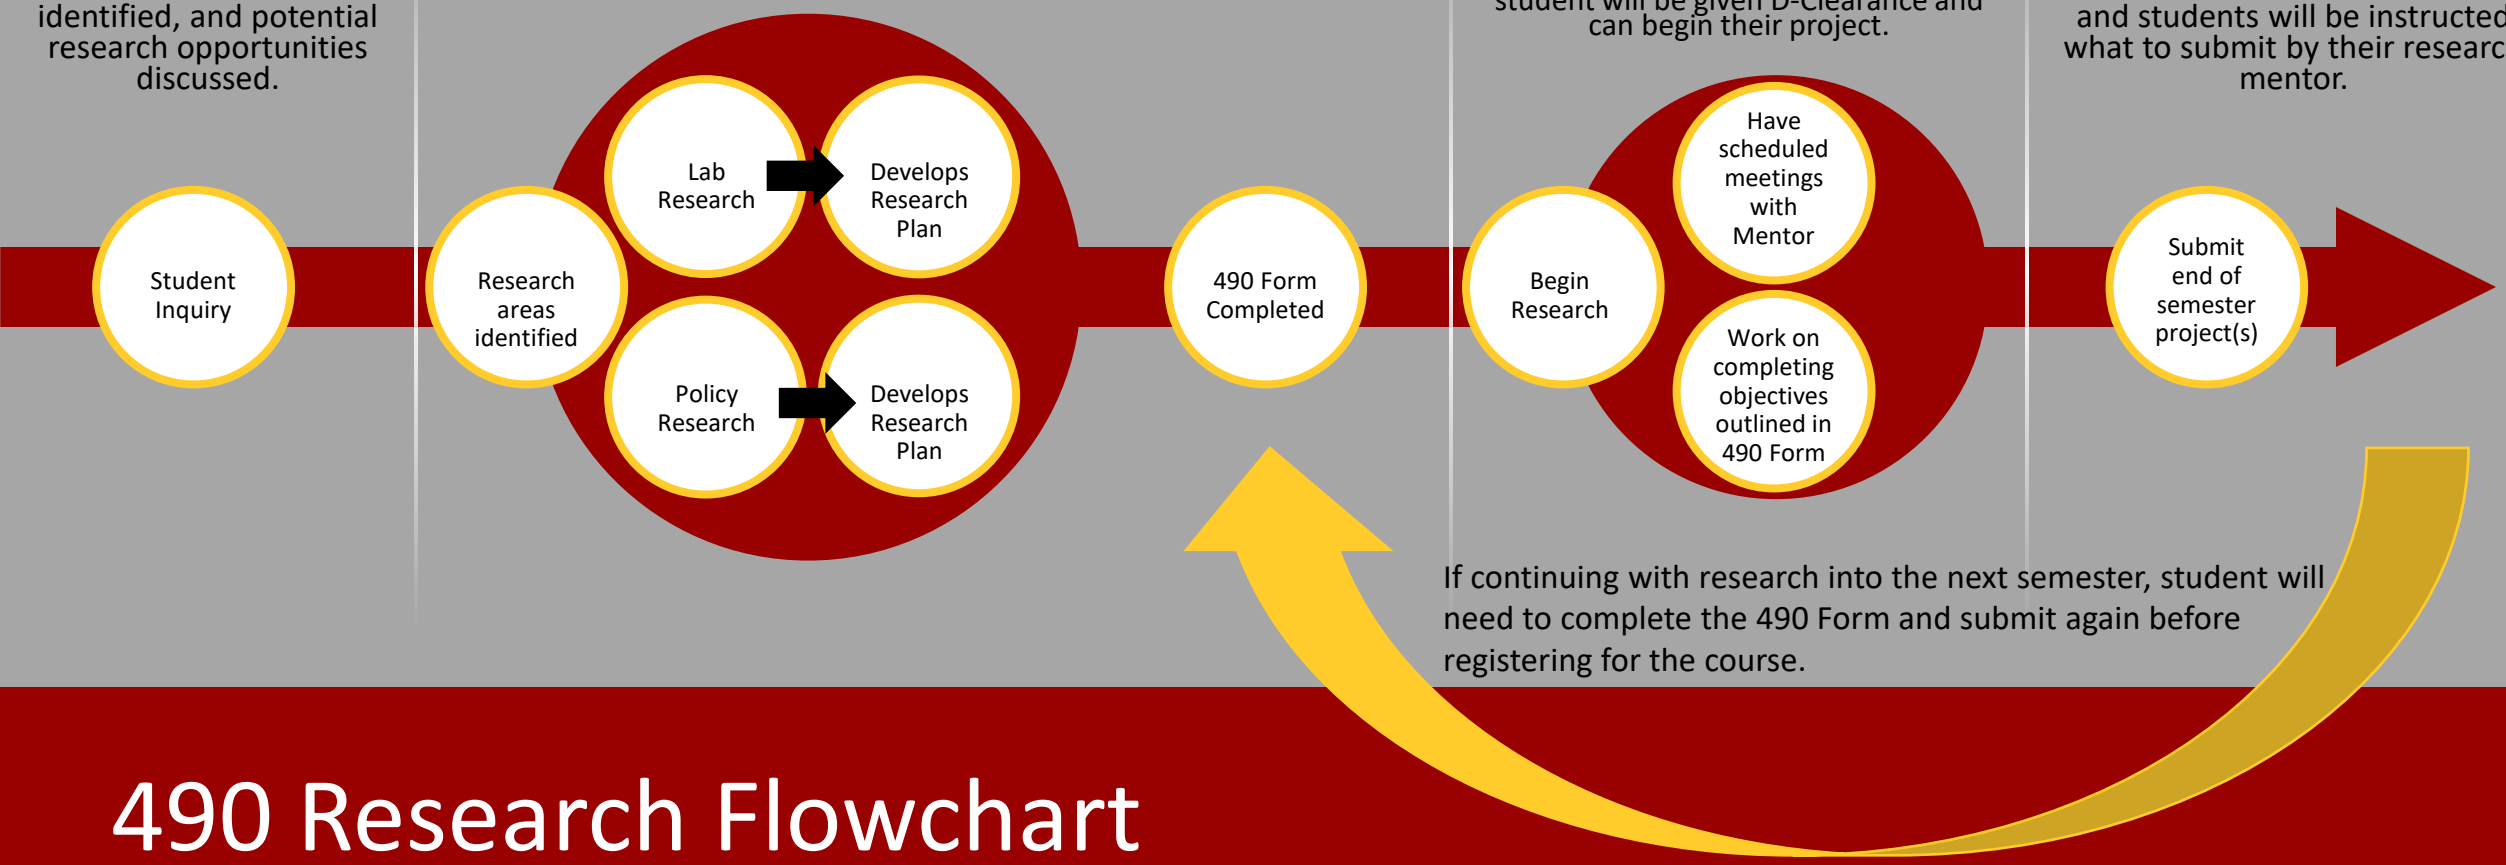
Students will reach out to the identified faculty members who are able to provide student with research experience.

Research

After completing the 490 Research Form and outlining deliverables, student will be given D-Clearance and can begin their project.

Grading

Grading will be completed before the end of the semester and students will be instructed what to submit by their research mentor.



If continuing with research into the next semester, student will need to complete the 490 Form and submit again before registering for the course.
