These journals are confidential, and you should refer to them when writing your final paper.

Midterm Paper - Interview assignment:

Schedule and conduct an interview with a staff member who either does not work in your department or you do not have regular contact with* Think about – who in the organization has a job that interests you? Ask them questions regarding their job description, their responsibilities, how they came to that position, what training and/or education was needed for the job, their previous experience in the field, and the direction they see their position going in the future with this organization (or beyond).

**Informational interviews with a professional outside the organization are also acceptable. The point is to identify and connect with someone who works in the field you aspire to enter. Ask your supervisor, or try searching LinkedIn... Contact the instructor if you are having difficulty identifying someone for the interview.*

Write a 2-3 page paper summarizing your interview with this individual. The paper should reflect your thoughts and opinions following the conversation, consider the information they disclosed and how this assignment affects your attitude towards your internship.

2-3 pages, 12 point font, double-spaced.

The interview paper is due by 6:00pm, Wed - Feb. 21. Please upload the paper via Blackboard.
