

**ENST 320a: Water and Soil Sustainability** 

Fall 2024, TTH 12:30-1:50 pm

Section: 33021, 4 units Location: WPH 103

Instructor: Dr. David Ginsburg, Professor (Teaching), ENST

**Preferred Pronouns:** he/him

Office: CAS 116

Office Hours: Weds, 10:30 am to 12:00 pm or by appointment

Email: dginsbur@usc.edu

#### **Course goals**

ENST 320a presents an overview of the issues related to water and soil sustainability including soil development and management, the hydrologic cycle, the cycling of nutrients, soil and water pollution and food security. *Recommended preparation: ENST 100* 

## **Classroom ground rules**

- Share responsibility for including all voices in a conversation
- Listen respectfully to your classmate's and your instructor's viewpoints
- Be open to changing your perspectives based on what you learn from others
- Understand that we are bound to make mistakes in this space
- Take group work during class and outside of lecture seriously
- Understand that your classmates may have different experiences from your own
- Make an effort to get to know your classmates
- Understand that there are different approaches to solving problems

#### **Learning objectives**

Student learning objectives are aligned with the ENST Program in which students will:

- Learn about water in the environment by focusing on water dynamics, pollution and how humans use and interact with water
- Investigate soil science to understand how the physical, chemical and biological properties of soil are important to humans and the environment
- Study how soil and water quality are intimately linked and their importance for food production and security worldwide

# **Course modality**

ENST 320a will be taught as a synchronous, in-person course and you are expected to be present for each lecture section. Recorded lectures will not be provided to students via Zoom (or any other platform) unless accommodations have been requested via OSAS. Students that miss class are expected to get notes from their classmates.

This course will primarily use Brightspace (**Referred to below as Bsp**) for communication, information and turning in assignments. PDF copies of lecture slides and links to topics discussed during class will be made available on Bsp after each lecture is completed.

Readings from the primary and secondary literature will be assigned throughout the semester and will be announced in class, posted on Bsp and/or via email. During some lectures, we may work with spreadsheet data (using MS Excel) and run data simulations or experiments as either a class or asynchronously.

#### **Textbook and Readings**

- 1. Pennington, Karrie L. and Cech, Thomas V., Introduction to Water Resources and Environmental Issues, 457 pp., Cambridge. **Referred to below as WREI**
- 2. Brady, Nyle C. and Weil, Raymond R., Elements of Nature and Properties of Soils, Pearson. **Referred to below as ENPS**
- 3. Additional readings will be assigned throughout the semester and will be available on Bsp

#### **Description and assessment of assignments**

You will be graded on the basis of your performance on exams, written assignments, course activities and participation during lectures. If there is a scheduling conflict with an exam, assignment or activity you must notify me via email at least one-week in advance to see if alternative arrangements can be made. If it is an excused absence (official USC travel, medical reasons, religious observation, etc.), I will do my best to provide you with a way to obtain the associated points. Otherwise, no make-ups will be allowed.

Exam questions will be drawn from course readings, lecture materials and any related assignments, activities and discussions. Two separate exams (midterm and final) are scheduled over the course of the semester. The final exam is partially cumulative and will be comprised of ~20% cumulative and 80% new material covered in the course.

Both the midterm and final will be administered in the classroom electronically via Bsp (specific details will be discussed/posted closer to the date on the course schedule). Therefore, each student is *required* to bring a laptop computer to class on the day of the midterm and final (If you need to borrow a computer – see the <u>USC Computing Center Laptop Loaner Program</u> website for details).

During exams, students are NOT allowed to work as a group, use notes, books, mobile devices, complete the exam outside of the classroom, etc. Noncompliance with exam policies may result in a student being reported to the USC Office of Academic Integrity and/or receiving zero points for the given assignment.

Lecture section activity and assignment points comprise 70% of the total course grade. Laboratory activities and points (outlined in lab section schedule) make up 30% of the total course grade.

All assignments must be submitted by the stated deadlines. Late assignments will have 15% deducted each 24 hours, with the first 24 hr deduction starting 15 min after the deadline. Reminder: USC policy prohibits sharing of any course content outside of the learning environment.

# Overview of graded course work

- Water-soil presentation: This is a group assignment in which students (two per group) will present a water-soil-related topic (instructor approved) that is unrelated to the material being covered in class. Students will present their topic orally (10 min) during lecture and submit a written summary via Bsp (2 page max, single spaced). Each group presentation is worth a total of 50 points (25 pts presentation; 15 pts summary; 5 pts title/topic submission, 5 pts evaluation).
- Article analysis: Students will critically read an assigned article (from either the primary or secondary literature) and provide a written summary (1 page max; single spaced) to questions posted online, which they will then submit via Bsp. Students will discuss their findings during class on the day each assignment is due. Six separate article summaries are scheduled over the course of the semester and are worth a total of 48 points (8 pts each).

- **Soil analysis:** Students will analyze a set of soil data with Excel and submit a brief write up at a later date. The write-up will include comment on the health of these soil data based on what we have learned in class and is worth a total of 45 points (15 pts in-class, 30 pts written summary).
- Data interpretation: In-class activity in which students review and analyze/review data in order to answer critical questions as a group. Approximately 5-6 data interpretation activities will be randomly assigned throughout the semester and are part of the participation grade (40 points max). Students must be present in class to receive credit for these assignments. If absent (regardless if it is an excused absence), you will receive a zero for that particular assignment.

# **Grading Breakdown**

Assignment	Points	% Lecture	% Course
Midterm	100	25%	17%
Final	120	30%	21%
Water-soil presentation	50	12%	9%
Article analyses (6 x 8 pts)	48	12%	8%
Soil analysis	45	11%	8%
Participation (data interp., disc, etc.)	40	10%	7%
Total	403	100%	70%*

<sup>\*</sup>Lecture and lab sections comprise 70% and 30%, respectively, of total grade (575 pts overall)

# **Grading scale**

Final course grades will be determined based on the percentage of points earned as outlined below. This scale may be adjusted depending on the progress of the class. If course taken as a "Pass" grade, you must earn a letter grade of C- or greater in course. A final point score at or below a D+ grade will result in a "No Pass."

Α	94-100	С	73-76
A-	90-93	C-	70-72
B+	87-89	D+	67-69
В	83-86	D	63-66
B-	80-82	D-	60-62
C+	77-79	F	59 and below

# **Additional policies**

Routine attendance and active participation are an important part of each class session. Participation will be evaluated via thought exercises, reading assignments, in-class quizzes and questions. You are responsible for all information, announcements, date changes and any other course material presented, regardless of your participation or presence in the classroom.

The use of phones and other devices for text messaging, email, social media use, and web-browsing is not permitted in class except where required for in-class work

# **Course Schedule**

For the best learning experience, you are expected to have read the assigned material by the date it is discussed in class. Course materials will be posted online on Bsp. The readings and schedule of topics may be adjusted throughout the semester depending on progress of the class.

Week	Date	Course Tonics Activities and Assignments	Toythook and course readings
week 1	Aug 27	Course Topics, Activities and Assignments  Water as a chemical	Textbook and course readings See Bsp
1	Aug 29	Asynchronous class	See Bsp for alternate assignment
2	Sep 03	Hydrosphere and hydrologic cycle	WREI Ch 3
	2 3ep 03	Watersheds and water supply	WREI Ch 5
2	Sep 05	Article analysis & discussion 1	See Bsp
3	Sep 10	Watersheds and water supply, cont'd	WREI Ch 5, see Bsp
3	Sep 12	Water usage and treatment	WREI Ch 11
4	Cop 17	Water usage & treatment, cont'd	WREI Ch 12
4	Sep 17	Article analysis & discussion 2	See Bsp
4	Sep 19	Soil development	ENPS Ch. 1-2, Ch. 4
5	Sep 24	Soil development, cont'd	ENPS Ch. 11, 14
5	Sep 26	Water-Soil Presentations #1 (1-3)	In-class activity
6	Oct 01	Agriculture and food security	See Bsp
6	Oct 03	Agriculture and food security, cont'd  Article analysis & discussion 3	See Bsp
7	Oct 08	Water-Soil Presentations #2 (4-6)	In-class activity
7	Oct 10	Fall Recess – No Class	
8	Oct 15	Microbiology, FIB and Vibrio	See Bsp
8	Oct 17	MIDTERM EXAM	
9	Oct 22	Surface and ground water dynamics	ENPS Ch 5, 6; WREI Ch 6
9	Oct 24	Nutrient cycling	ENPS Ch 11, 12
10	0-+ 20	Nutrient cycling, cont'd	ENPS Ch 13
10	Oct 29	Article analysis & discussion 4	See Bsp
10	Oct 31	Coastal pollution	See Bsp
11	Nov 05	Coastal pollution, cont'd  Article analysis & discussion 5	See Bsp
11	Nov 07	Soil food webs & analysis	ENPS Ch. 10
12	Nov 12	Soil data analysis	In-class activity/assignment
12	Nov 14	Water-Soil Presentations #3 (7-9)	In-class activity
13	Nov 19	Fisheries and blue economy	See Bsp
13	Nov 21	Fisheries and blue economy, cont'd  Article analysis & discussion 6	See Bsp
14	Nov 26	Asynchronous class	See Bsp for alternate assignment
14	Nov 28	Thanksgiving Holiday – No Class	
15	Dec 03	Wetlands and estuaries	WREI Ch. 9
15	Dec 05	Water-Soil Presentations #4 (10-11)	In-class activity
17	Dec 17	FINAL EXAM: WPH 103, 11:00 am – 1:00 pm	

### **Statement on Academic Conduct and Support Systems**

### **Academic integrity**

Academic dishonesty is far-reaching and is considered a serious offense against the university. All incidences of academic misconduct will be reported to the Office of Academic Integrity and could result in outcomes such as failure on the assignment, failure in the course, suspension, or even expulsion from the university. For details, see <a href="the student handbook">the student handbook</a> or the <a href="Office of Academic Integrity's website">Office of Academic Integrity's website</a>, and university policies on Research and Scholarship Misconduct.

# **Students and Disability Accommodations**

USC welcomes students with disabilities into all of the University's educational programs. The Office of Student Accessibility Services (OSAS) is responsible for the determination of appropriate accommodations for students who encounter disability-related barriers. Once a student has completed the OSAS process and accommodations are determined to be reasonable and appropriate, a Letter of Accommodation (LOA) will be available to generate for each course. The LOA must be given to each course instructor by the student and followed up with a discussion. This should be done as early in the semester as possible as accommodations are not retroactive. More information can be found at osas.usc.edu. You may contact OSAS at (213) 740-0776 or via email at osasfrontdesk@usc.edu.

### **Student Financial Aid and Satisfactory Academic Progress**

To be eligible for certain kinds of financial aid, students are required to maintain Satisfactory Academic Progress (SAP) toward their degree objectives. Visit the <u>Financial Aid Office webpage</u> for <u>undergraduate</u>-and <u>graduate-level</u> SAP eligibility requirements and the appeals process.

# **Support Systems**

Counseling and Mental Health - (213) 740-9355 - 24/7 on call

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

988 Suicide and Crisis Lifeline - 988 for both calls and text messages - 24/7 on call

The 988 Suicide and Crisis Lifeline (formerly known as the National Suicide Prevention Lifeline) provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week, across the United States.

The Lifeline consists of a national network of over 200 local crisis centers, combining custom local care and resources with national standards and best practices. The new, shorter phone number makes it easier for people to remember and access mental health crisis services (though the previous 1 (800) 273-8255 number will continue to function indefinitely) and represents a continued commitment to those in crisis.

<u>Relationship and Sexual Violence Prevention Services (RSVP)</u> - (213) 740-9355(WELL) – 24/7 on call Free and confidential therapy services, workshops, and training for situations related to gender- and power-based harm (including sexual assault, intimate partner violence, and stalking).

#### Office for Equity, Equal Opportunity, and Title IX (EEO-TIX) - (213) 740-5086

Information about how to get help or help someone affected by harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants.

# Reporting Incidents of Bias or Harassment - (213) 740-2500

Avenue to report incidents of bias, hate crimes, and microaggressions to the Office for Equity, Equal Opportunity, and Title for appropriate investigation, supportive measures, and response.

# <u>USC Campus Support and Intervention</u> - (213) 740-0411

Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

# Diversity, Equity and Inclusion - (213) 740-2101

Information on events, programs and training, the Provost's Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.

# <u>USC Emergency</u> - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call

Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

<u>USC Department of Public Safety</u> - UPC: (213) 740-6000, HSC: (323) 442-1200 – 24/7 on call Non-emergency assistance or information.

# Office of the Ombuds - (213) 821-9556 (UPC) / (323-442-0382 (HSC)

A safe and confidential place to share your USC-related issues with a University Ombuds who will work with you to explore options or paths to manage your concern.

### Occupational Therapy Faculty Practice - (323) 442-2850 or otfp@med.usc.edu

Confidential Lifestyle Redesign services for USC students to support health promoting habits and routines that enhance quality of life and academic performance.
