Body, Justice and the Planet

#20772R Rook Campbell

Mon, Wed, 2:00 – 3:20 p.m., 4 units

Body, Justice and the Planet is an experiential learning course concerned with the ways sport might become an empowering part of how we come to care about the planet. Situated in learning opportunities within our local Los Angeles landscapes, our body culture studies are about the entangled social and environmental dimensions of justice. Through hands-on field sites, students will explore sport alongside industry and non-profit experts.
