Textbook:

Linear Algebra and its Applications (4th edition) by G. Strang.

Grading:

There will be problem sets (roughly one every week), a midterm, and a final, with weights:

Homework/Participation: 20%, Midterm: 40%, Final: 40%

The following minimum letter grades are guaranteed to students scoring within the specified intervals: 85-100 A, 75-85 B, 60-75 C. The above thresholds may be adjusted at the end of the semester at the discretion of the instructor. Any such adjustments will be in favor of a higher letter grade. Class participation may also factor into the homework score. For example, you may be asked to present your solution to a problem to the class. There may be occasional pop quizzes given in class, worth points toward the homework/participation score.

Class Participation:

Class participation is strongly encouraged. There may be group work, project presentations, and brief random quizzes given for a small amount of extra credit. All students are required to attend office hours at least once during the semester.
