RESEARCH AND PUBLICATIONS

I am interested in the interface between social psychological theory and education. Most broadly, I study the determinants and development of motivation and the relationship between motivation and academic achievement. I have most frequently focused on how the provision of choice and other supports for autonomy may impact motivation and support various achievement related outcomes. I am also interested in how school time and the activities of children outside of school influence their academic achievement. I have studied the effects of extended school time and activities such as parent involvement in schoolwork, homework, and afterschool programs. Finally, I am interested in the development and use of research synthesis and meta-analytic methods in social science research.

TEACHING

My principal areas of teaching include motivation, emotion, learning, development, social psychology, and research methods, primarily research synthesis methods.

Current Teaching

Undergraduate courses GESM 161g: Mind, Belief, and Behavior, Learning about Learning: A Quantitative Seminar
 Graduate courses EDUC 712: Issues in Human Motivation

Past Teaching

Undergraduate courses ALD 328: Applied Human Learning (UT-Austin)
 ALD 320: Cognition, Human Learning, and Motivation (UT-Austin)
 Social Psychology of Education (Duke)
 Graduate courses EDP 382L: Motivation and Emotion (UT-Austin)
 EDP 385: Literature Review and Research Synthesis (UT-Austin)
 EDP 382L: Current Topics in Motivation (UT-Austin)
 Correlation and Regression (Duke)
 Applied Analysis of Variance (Duke)

ADVISING

My advising experiences have included helping graduate students with identifying and working towards their career goals. I have provided assistance to students across campus working on issues of motivation and often provide advice to students working on research syntheses and meta-analyses. In addition to graduate students, many undergraduate students meet with me about the possibility of pursuing graduate school in psychology or work with my research group to gain experience in educational psychology research. I have written numerous letters of recommendation for both graduate and undergraduate students.
